HANDY WING ACTIVE WIRELESS

In-car phone holder with wireless charging

Features:

- Mounts on airvents
- Fast, efficient and safe wireless charging thanks to the exclusive Wideactive™ 2 technology, with dual-coiled circuits
- Designed for Qi compliance
- Access to connectors, keys and screen
- One hand gravity system: just place the phone and the holder adjusts itself width and length
- Micro-USB cable included in the packaging.

Compatibility:

All the smartphones compatible with Qi wireless charging technology

Description:

Handy Wing Active Wireless is the brand new air vent car holder by Cellularline designed for Qi compliance: it fast charges safely and efficiently the compatible phones thanks to Wideactive™ 2 technology, whose double-coiled circuits provides a constant charge without overheating.

It also has the One Handy Gravity System: once the phone is placed, the holder selfadjust its own width and length, allowing the driver to place in or take out the phone with just one hand in a quick, comfortable movement.
