- Compatible with Qi devices.

Compatibility:

Samsung, iPhone* and other Wireless Smartphones

*iPhone 8 or later

Description :

WIRELESS FAST CHARGER - PAD is the wireless charger by Cellularline, Qi certified by the Wireless Power Consortium, that enables **FAST CHARGING** for all the smartphones compatible with Qi wireless charge.

WIDEACTIVE™ 1 technology guarantees a safe and quick wireless charge, thanks to its exclusive single-coiled circuits that also prevent phone overheating.

Starting the charging process is also very simple and only requires to put the smartphone on the pad's surface. Moreover, the smartphone can be charged even if it has a case, because it doesn't interfere with the Wireless Charger functioning.

The packaging includes a 160 cm-long Type-C cable and a 10W adaptive USB charger, which provides the correct power level to the pad and maximizes the charging performance of all the top smartphones on the market
